- Academic Writing 171 to be submitted as per information shared on BCConnect
- Academic Writing 181 to be submitted as per information shared on BCConnect
- End User Computing 161 to be submitted as per information shared on BCConnect
- Research 381 re-submissions on original topics are due 31 October 2025
- Innovation and Leadership – All submissions are per Study Guide and Guidelines from your supervisor on BCConnect
- Some of the modules written on the afternoon of 21 November do not have a sit-down examination. These modules use your assignments and projects to determine your final mark. In some cases, a presentation is required. Please consult your study guide.

Dear students

Please find attached the examination schedule for the November 2025 examination block.

The November 2025 examination schedule has been divided into two timeslots:

- Morning – 08h15 to 11h15
- Afternoon – 13h45 to 16h45

Any questions or queries regarding the November 2025 examination should be sent to examination@belgiumcampus.ac.za

IMPORTANT INFORMATION

1. Re-examinations

Re-examinations for modules will occur during the November 2025 examination block.

Students who meet the below criteria are **automatically** registered for a re-examination.

- You obtained a class average of 50% or more.
- You failed to obtain a final result of 50% after the first examination was written

Note: If you have a re-examination, it is possible that you will have to write in both AM and PM sessions.

Note: A student that received both a written warning and a 0 for an examination after the results were released will not be granted a re-examination.

On your student portal you will find an application to rewrite an examination. This **only** applies to modules you passed and where you would like to improve your result. Note that the result from this re-examination will replace your previous result and not the better of the two.

2. Sick examinations

All sick examination applications that have been submitted since the previous examination period will still be processed until 3 November 2025. No sick examination applications will be considered after this date.

3. Special permission applications

You may apply for special permission for examinations on your student portal if the following conditions were met:

- All assessments (assignments and tests) were completed for the module you are applying for.
- You obtained a class average for a module completed during semester 2 of 45% - 49%.
- No dishonest academic conduct on your record for the module you are applying for.
- Suitable motivation provided why special permission should be granted.

If any of the conditions above are not met, do not apply since it will be declined.

4. **General**

- With any application that was submitted, please monitor your student e-mail address for the outcome.
- You must write at the campus where you are registered. The only exception to this is if the module was provided online only, or your lecturers have communicated the mode and location for the examination.
- Students writing online must have access to a laptop or computer, a webcam, and stable internet connection (preferably at least 10MB download and 10MB upload).
- All students have the option to write on campus. If you are unsure about your internet stability, there might be electrical interruptions, or your webcam is unreliable, please send an email to examination@belgiumcampus.ac.za and you will be allocated a seat at campus.
- Please ensure you regularly check BC Connect announcements as well as your student email for any additional communications regarding the examinations.
- The examination rules and guidelines will be sent out via BC Connect announcements and to your student email. It is **critical** that you adhere to these rules since not complying might result in you not being allowed to write an exam.

Good luck with the upcoming examinations.
